EBPRO THERAPY

HEALING IS ACCOMPLISHED BY MOVING ENERGY!!!!

EB Pro is an ionized foot bath designed to restore the body's energy and balance, while facilitating and aiding the body's natural detoxification process. It balances and restores the body's Ph and electromagnetic energy.

The cellular cleanse created by the EBPro creates a gentle process that gets electrons moving within the body, via the acupuncture meridians and connective tissue matrix that can get into the sites of inflammation, cancel out free radicals and assist the body in flushing out any toxins that may be released in the process, naturally & supportively!

How it works:

The copper array conducts direct current into the water and generates an ionic field that transfers into the body. The bubbles coming from the array indicate the ionic field is being created as the hydrogen and oxygen particles separate. Warm water allows feet to sweat, opening the pores, and allowing a greater absorption rate through the skin

TOTAL BODY DETOXIFICATION = TOXINS, PAIN & INFLAMMATION

SYMPTOMS of EXCESSIVE TOXIC BURDEN:

- ❖ **Dark Circles Under Eyes**
- ❖ **Digestion, Elimination Problems**
- ❖ **Overweight / Underweight**
- ❖ **Fatigue, Lethargy, Weakness**
- ❖ **Depression**
- ❖ **Headaches, Irritability**
- ❖ **Cognitive Issues: Memory & Brain fog**
- ❖ **Difficulty Concentrating**
- ❖ **Muscle & Joint Pain**
- ❖ **PMS & Menstruation Difficulties**
- ❖ **Decreased Vitality, Stamina, Libido**
- ❖ **Decreased Athletic Performance**

Indications for Use:

- ❖ Great for reducing toxic buildup, digestive issues, allergies, pain & achiness etc.
- ❖ Supports a proactive regime for chronic illness and speeds recovery from acute illness.
- ❖ Can also help move things forward when your progress has reached a plateau.

Contraindications i.e. Do Not Use:

- ❖ You are pregnant or lactating
- ❖ You have a pacemaker, transplanted organ, arrhythmia, or are taking heart-regulating medication.

General Cautions:

- ❖ If you are diabetic or have low blood sugar, eat a meal prior to treatment.
- ❖ Mindful of 'healing crises' and reactions, if you are sensitive to detoxification, consult with us prior to treatment so we can discuss appropriate treatment options and determine optimal duration & frequency for your needs.
- ❖ Drink LOTS of water & replenish trace minerals (pre & post treatment)
- ❖ Cancer history: consult with your physician as well as our office prior to treatment to help determine if/when this type of a detoxification may be appropriate in your health care plan.
